

How Textbooks, Materials, and Information Displays in Course Guide

Special Instructions: The Chemistry: The Central Science with MasteringChemistry Technology Kit is sold only at the University Bookstore, Underground Textbook Exchange and Beat the Bookstore. LABORATORY MANUALS will be sold in the chemistry building starting the first day of classes for \$10 CASH ONLY. Laboratory carbonless notebooks can also be purchased in the chemistry building starting the first day of classes for CASH ONLY. Area bookstores also sell carbonless lab notebooks.

Textbooks are available from an array of local and online vendors. The University has no affiliation with any particular vendor. Students are encouraged to check a variety of vendors for price and availability. The websites listed below under General Resources are provided solely as examples.
